

# GAANN FELLOWSHIP: DOCTORAL RESEARCH AND TRAINING IN MECHANICAL ENGINEERING

Stony Brook University is recruiting highly-motivated doctoral students in Mechanical Engineering to conduct cutting-edge research in various exciting areas related to advanced energy, robotics and manufacturing, as well as other emerging fields in mechanical engineering.

## ELIGIBILITY FOR GAANN FELLOWSHIP

- Must be a U.S. citizen or a permanent resident of the United States.
- Must be accepted into the mechanical engineering Ph.D. program at Stony Brook University.
- Have a strong GPA with a strong desire to conduct research.

## FELLOWSHIP BENEFITS

- Fellowship stipend: **up to \$37,000** annually (based on demonstrated financial need).
- Educational Allowance: **up to \$19,033** annually to cover tuition, fees and research related expenses.
- Opportunity to conduct cutting-edge research with leading faculty in the field and obtain supervised teaching experience.

## APPLICATION PROCESS

- Apply to the Stony Brook University Mechanical Engineering Ph.D. program at [me.stonybrook.edu/admissions/graduate](http://me.stonybrook.edu/admissions/graduate).
- Email the GAANN program director with the following information:

- ☐ Name and email address
- ☐ Unofficial transcripts
- ☐ Resume
- ☐ One page statement of how a doctoral degree will fit into your future plans.

**Underrepresented students are especially encouraged to apply.**
