MEC 691 Mechanical Engineering Seminar

Seminar Coordinator: David J. Hwang (david.hwang@stonybrook.edu)
(222 Heavy Engineering, Office Phone: 631-632-8346)

Seminar hours: TBA (usually 11am or 2pm Friday)
One should regularly check department website and/or bulletin board.

Catalog Description:
This course is designed to expose students to cutting-edge research and development activities in mechanical engineering. Speakers are invited from both on and off campus.

Prerequisites, Text Book: None

Grading: 0 credit, S/U grading. May be repeated.

Requirements for course credit:
(1) Seminar attendance
  : Each student should sign on sign-in sheet regularly.
  (Exception given to part-time students or full-time students who should work on Friday. They should declare the exception and provide evidence to the seminar coordinator.)
(2) Poster symposium attendance
  : Full time graduate students are required to attend the poster symposium to be held end of April. Refer to a separate announcement for 2011 Annual Research Poster Symposium for details.

Other inquiries:
For all other inquiries, contact the seminar coordinator.
Call for Abstract

2011 Annual Student Research Poster

Department of Mechanical Engineering, Stony Brook University

Dear Students,

As a student here, do you want to learn about the active research topics in our department? What kind of research is being conducted by other students? Do you want to share your results and showcase your current progress? Here is a forum for these purposes.

All graduate students and senior undergraduates are invited to participate to the first Annual Student Research Poster of the Department of Mechanical Engineering at SBU. The best posters will be awarded with a prize and displayed in the department to promote the achievements and creativity of ME students. Faculty and students from the College of Engineering and Applied Science will be invited to the poster session to discuss and celebrate your research.

To participate in the poster session, please submit an abstract of 100-200 words by March 4th, 2011 to david.hwang@stonybrook.edu (including a list of 3-5 key words and your advisor’s name). Examples of topics include parts of your dissertation or thesis, your MEC 699/599/499 work, some industrial project you are involved in, your senior design work, etc. Full time graduate students are required to attend the poster session as the department seminar series MEC 691. The poster organization committee will review the abstracts and notice the acceptance by March 21st, 2011.

**Best Poster Awards:** 1-3 posters will be selected as best poster through peer voting and evaluation of the organization committee. Award will be announced after the poster session.

Don’t miss a chance to obtain a research award!

**The following are some important due dates:**

**Abstract due:** Friday March 4th, 2011

**Notice of Acceptance,** Monday March 21st, 2011,

**Poster Session:** April 29th, 2011, Friday 2pm-4:50pm, Room 143 Engineering Building

**Organization Committee:** To be announced.
