#### Requirements for Admission to the Major in Mechanical Engineering

Qualification for admission is based upon all of the following requirements:

1. Completion of PHY 131 or PHY 126 or PHY 127 or their equivalents,
  2. One MEC course required for the major and taken at Stony Brook,
  3. Earn 10 or more credits of mathematics, physics, and engineering courses that are taken at Stony Brook and satisfy the Major's requirements,
  4. Obtain a G.P.A. of at least 3.2 in major courses with no more than one grade below B-, and
  5. No courses required for the major have been repeated.
- Admission is highly competitive and contingent upon program capacity.

#### Accelerated BE/MS Program in Mechanical Engineering (5 years)

The accelerated BE/MS program in mechanical engineering allows students to use up to 6 graduate credits (typically technical electives) taken as an undergraduate towards MS degree requirements, thus reducing the normal time required to complete the MS degree. The program is designed for upper-division mechanical engineering students with superior academic records (GPA ≥ 3.2).
